Although Soon-Ae tries her best to stay composed and keep a straight face, she feels her blood boil when Cho-eun taunts her by saying that there's no point in staying in a marriage without love or affection. When Il-seok calls Cho-eun and says, "Honey, where are you?" Soon-Ae loses it and grabs for Cho-eun's hair. The two women go on pulling on each other's hair and crash the car. They are moved to a hospital where their souls become switched around...
